We strictly control the quality on every material to make sure that the customers receive the perfect

products and on basis of such process and standard, we have gained their respect and high reputation. With high quality and competitive prices, Carelite will always make your life sunny forever.

#### Product Description

As a manufacturer, we always focus on creating the best lighting experience. Only high end LED and advanced optical design are adopted. This Carelite **Portable Dual Lighting 850lm Spotlight Lantern** adopts a superb Osram P9 LED of the main beam that gives out brightness up to 850 lumen with a long illumination distance of 500m and the side wide beam floodlight 300lm, bright enough for outdoor searching and emergencies.

Boat spotlight withstands strong seawater or rain (Do not submerge under water). Designed for a variety of conditions, from heavy rain to dry and dusty environments. Made from tough, impact resistant ABS and polystyrene to protect the light from drops and bumps while in use.

Handheld flashlight has 4 led indicator lights on the handle displaying charge level, each indicator light represents 25% power. So that you can see the power status at a glance. Flashlights high lumens is built-in USB Input & Output Ports. Allows you charging the LED flashlight conveniently, flashlight can also be used as a temporary power bank.

Each searchlight will be tested 3-5 times before they are shipped to customers. We specifically test brightness, battery condition, and water resistance. Strive to protect the interests of customers and ensure the safety of customers.

Specifications of Carelite lanternspotlight:	
Material	Polycarbonate, TPE, Aluminum, Steel
Li- ion battery	3.7V, 4400mAh, 16.28Wh
