

Retro Outdoor Rechargeable LED Tent Campground Lantern

As a professional Retro Outdoor Rechargeable LED Tent Campground Lantern manufacturer, Carelite is an innovative manufacturer of camping lantern in China, through our endless efforts over the past years, our products have been exported to more than 20 countries and our factory has become a priority supplier in the field of lighting products with professional design, excellent quality and reasonable price.

Product Description

The best materials and the highest craftsmanship have been adopted by our factory in China to build this light. This Carelite **Retro Outdoor Rechargeable LED Tent Campground Lantern** is a super bright long battery life retro portable led outdoor waterproof emergency light rechargeable camping lantern.

This tent light is a rechargeable, retro-style portable outdoor led camping lamp with a unique nostalgic design, built-in a 4000mah lithium battery pack, it can last 2.5-216 hours after a full charge, the brightness of the light can be adjusted freely, and it is equipped with type-c the fastest charging cable and the battery power indicators are clear at a glance, the large bail handle makes it easy to carry anywhere. It is our bright ambassador for camping and recreational activities.

With IPX5 protection level, this hanging Lantern is well protected against splashing water from all angles, reliable and durable in any weather, built to last!

Our Vintage style lantern has 2 color temperatures: Warm orange by the 3 LED filaments and warm white by the SMD bulbs built on the ceiling inside the lantern, the previous one makes you feel relaxed in a romantic atmosphere and the latter one is great for outdoor camping, tent, path, yard, garden, room, party, fishing, emergency and more.
